

# Spectrum Strategic Income Fund

## Product Disclosure Statement

mFund SPE01  
ARSN 120 567 133  
APIR ETL0072AU  
Issue Date 9 March 2018

### About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the Spectrum Strategic Income Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms) contained in the Spectrum Reference Guide ("Reference Guide"), which forms part of this PDS. You should consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The offer to which this PDS relates is only available to persons receiving this PDS (electronically or otherwise) in Australia.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the US Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial advice tailored to your personal circumstances and consider whether the information in this PDS is appropriate for you in light of those circumstances.

### The Reference Guide

Throughout the PDS, there are references to additional information contained in the Reference Guide. You can obtain a copy by visiting [www.eqt.com.au/insto](http://www.eqt.com.au/insto) or by emailing the Investment Manager at [info@spectruminvest.com.au](mailto:info@spectruminvest.com.au) or visiting [www.spectruminvest.com.au](http://www.spectruminvest.com.au).

The information contained in the Reference Guide may change between the day you receive this PDS and the day you acquire the product. You must therefore ensure that you have read the Reference Guide current at the date of your application.

### Updated information

Information in this PDS is subject to change. We will notify you of any changes that have a materially adverse impact on you or other significant events that affect the information contained in this PDS. Any information that is not materially adverse is subject to change from time to time and may be updated and obtained by visiting [www.eqt.com.au/insto](http://www.eqt.com.au/insto) or by emailing the Investment Manager at [info@spectruminvest.com.au](mailto:info@spectruminvest.com.au) or visiting [www.spectruminvest.com.au](http://www.spectruminvest.com.au). A paper copy of the updated information will be provided free of charge on request.

# 1. About Equity Trustees Limited

## The Responsible Entity

### Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975 ("Equity Trustees"), a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's Responsible Entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's Responsible Entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Spectrum Asset Management Limited ("Spectrum") as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

## The Investment Manager

### Spectrum Asset Management Limited

Spectrum is a Sydney-based licensed investment manager that was established in 2001 for the sole purpose of managing investments in credit securities, by way of specialised investment funds or specific mandates for wholesale investors. Spectrum is an active manager of credit who evaluates the underlying credit risk and other risks associated with debt and income securities to make decisions for the medium term. Spectrum's investment team operates as an investment partnership with each member of the group bringing a specific area of expertise.

# 2. How the Spectrum Strategic Income Fund works

The Fund is a registered managed investment scheme. The Fund is governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become a unitholder in the Fund. The operator or custodian of the IDPS will be the unitholder entered in the Fund's register and will be the only person who is able to exercise the rights and receive benefits of a unitholder. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the following explanation applies to direct investors.

## Applying for units

You can acquire units by completing the Application Form that accompanies this PDS or by making an application through the mFund settlement service ("mFund") by placing a buy order for units with your licensed broker. The minimum initial investment amount for the Fund is \$5,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Mainstream Fund Services Pty Ltd  
Client Services Registry Team  
GPO Box 4968  
Sydney, NSW, 2001

or emailing [registry@mainstreamgroup.com](mailto:registry@mainstreamgroup.com)

Please note that cash cannot be accepted.

If applying via mFund you will need to provide the application money directly to your licensed broker.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.15%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

## Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$1,000.

## Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of March, June, September and December. Distributions are calculated effective the last day of each accounting period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next valuation time after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, where an investor makes a large withdrawal request (i.e. the withdrawal request is in respect of 5% or more of the total units on issue), their withdrawal proceeds may be taken to include a component of distributable income.

Indirect Investors should review their IDPS guide for information on how and when they receive any income distribution.

## Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Mainstream Fund Services Pty Ltd  
Client Services Registry Team  
GPO Box 4968  
Sydney, NSW, 2001

or emailing [registry@mainstreamgroup.com](mailto:registry@mainstreamgroup.com)

or by fax to +61 2 9251 3525

or by making a withdrawal request through mFund by placing a sell order for units with your licensed broker

The minimum withdrawal amount is \$1,000. Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s) or if the withdrawal is received via mFund.

Equity Trustees will generally allow an investor to access their investment within 7 days of receipt of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account or, where the request is received via mFund, to the investor's licensed broker. However, the Constitution allows Equity Trustees to reject withdrawal requests and also to make payment up to 60 days after acceptance of a request (which may be extended in certain circumstances).

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.15%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$4,000 as a result of processing your withdrawal request. Equity Trustees can deny a withdrawal request or suspend consideration of a withdrawal request in certain circumstances, including where accepting the request is not in the best interests of investors in the Fund or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you have invested indirectly in the Fund through an IDPS, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

### Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

### Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity the Fund will be subject to regular reporting and disclosure obligations. Investors would have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

### Further reading...

You should read the important information in the Reference Guide under "Investing in the Spectrum Strategic Income Fund", "Managing your investment" and "Withdrawing your investment" about:

- application cut-off times;
- authorised signatories;
- reports;
- withdrawal cut-off times;
- withdrawal terms; and
- withdrawal restrictions,

before making an investment decision. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

## 3. Benefits of investing in the Spectrum Strategic Income Fund

The Fund is an actively managed portfolio of debt and income securities designed to deliver reliable income.

### The significant benefits and features of investing in the Fund include:

- access to the expertise of an active manager of credit who utilises an investment process that combines fundamental research with disciplined portfolio construction and risk controls;
- access to a diversified portfolio of debt and hybrid debt securities;
- access to investments which may be only be offered to institutional investors;
- strong focus on income generation, with some opportunity of capital gain; and
- regular reporting to keep you up to date on your investments.

## 4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

## Credit risk

The risk that an issuer of a security in which the Fund invests will be unable to meet its obligations under the terms of the relevant security is usually referred to as credit risk. These obligations may include scheduled interest payments and or repayment of principal. Spectrum aims to manage these risks with careful analysis of research from many sources and making qualitative and quantitative credit assessments of issuers of the security using available research.

## Extension risk

The risk that issuers may elect to extend the repayment of certain securities and pay a higher interest rate to the Fund. While the issuer will pay a higher rate of interest to the Fund, the delayed repayment of capital of a security may cause a delay in the reinvestment of capital.

## Hybrid securities

Hybrid securities have the characteristics of both fixed interest (debt) and equity investments. They have an exposure to interest rate risk as well as market risk in relation to equity markets. Some hybrid securities are able to be converted from convertible bonds into shares. There is the added risk they may not be readily exchanged for cash or an equivalent asset value.

## Inflation risk

Inflation risk is the risk that returns will not be sufficiently higher than inflation to enable an investor to meet their financial goals.

## Interest rate risk

Changes in official interest rates can directly and indirectly impact on investment returns. Please refer to the Reference Guide for further details on interest rate risk.

## Issuer risk

The value of investments can vary because of changes to management, product distribution or the issuer's business environment.

## Key personnel risk

Spectrum is currently dependent upon the expertise of their existing management team – the performance of the Fund could be adversely affected if key members of the investment team do not continue to provide their services.

## Liquidity risk

There may be times when securities may not be readily sold (for example, in a falling market where some traded securities may become less liquid) and investors may not be able to withdraw their investments in the Fund. Please refer to the Reference Guide for further details on liquidity risk.

## Management risk

The Fund is subject to management risk because it is an actively managed investment portfolio. Investment techniques and risk analyses will be used in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results.

## Market risk

Changes in legal and economic policy, political events technology failure, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investment in the Fund. Please refer to the Reference Guide for further details on market risk.

## Reinvestment risk

This is the risk that arises if the Fund receives significant amounts of cash from securities that mature or are redeemed and there is a lack of suitable securities for the Fund to invest in, within the terms of the investment model.

## Sector specific risk

Companies in certain industries face unprecedented change and competitive pressures. Accordingly, the securities of these companies may be subject to high price volatility. These companies face competition from technologies and processes (being developed or to be developed in the future) which may make their products or services obsolete.

## Security selection risk

While Spectrum expects to add value from its stock selection efforts, this may not be the case especially over the short-term. Investors might therefore consider an investment in the Fund as just one element of a well diversified portfolio. Spectrum may make poor investment decisions resulting in sub-standard returns (for example, where Spectrum gains exposure to a security on behalf of the Fund that significantly underperforms relative to other securities). This may be brought about by a change of employees at Spectrum or a change of investment manager. Security selection risk is mitigated to some extent by the knowledge and experience of Spectrum. Credit rating downgrades result when ratings agencies lower their rating on a security – for example a ratings change from A to BBB. Downgrades are usually accompanied by price declines as the market requires higher credit margins.

## Sovereign risk

This is the risk that may result from changed circumstances of a particular country. The risks may be perceived or actual, relating to ratings changes, perceptions of default, or currency movements and may impact the liquidity and trading spreads of securities.

## Structural risk

This is the risk that structured securities may not perform as expected. This may be due to changes in credit ratings, non performance of underlying asset pool(s) or counterparty default and may result in non payment of interest, or delay / non payment of capital.

# 5. How we invest your money

**Warning:** Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

## Investment objective

To generate returns in excess of the benchmark by investing in a diversified portfolio of debt and income securities.

## Benchmark

Cash Rate determined by Reserve Bank of Australia.

## Minimum suggested time frame

The minimum suggested investment time frame for the Fund is 3 – 5 years.

## Risk level of the Fund

Medium

## Investor suitability

The Fund is suited for investors who:

- have a low tolerance for volatility of returns; and
- are more focused on income generation than capital gain.

## Investment style and approach

Spectrum will seek to provide enhanced returns by selecting securities that are considered to offer superior returns together with the potential for capital appreciation. Spectrum has developed an investment process that has been specifically tailored for Australian market conditions. The key elements of the investment process are:

- taking a global macroeconomic and political view of the likely future level of interest rates;
- using quantitative techniques and credit research to identify stocks that the Investment Manager expects to offer a yield premium in excess of the market for a particular creditworthiness;
- taking a medium term investment horizon view, whilst seeking to maintain appropriate liquidity requirements associated with a managed fund;
- adhering to a portfolio based investment process that features a disciplined approach to diversification and a comprehensive limit system; and
- engaging in active management of credit.

Spectrum utilise an investment process that combines fundamental research with disciplined portfolio construction and risk controls. Various analysis techniques are applied to make decisions about the selection of individual investments as well as changing the mix of securities held in the portfolio on an ongoing basis. Spectrum supplements its own research with external research from local and international sources.

Fund investments will be comprised of assets drawn from the following security types:

- listed and unlisted corporate debt, financial, government and government-related debt securities;
- listed income securities and convertible notes issued by corporate issuers and financial issuers;
- investment grade collateralised mortgage and debt obligations, residential and commercial mortgage backed and other asset backed securities;
- international government agency securities issued in Australian dollars; and
- term deposits and bank certificates of deposit and bankers' acceptances.

## Asset allocation

The Fund will predominantly adhere to the following investment restrictions. If the portfolio falls outside of these limits due to changes in ratings or values, Spectrum will seek to rebalance the portfolio where appropriate.

Ratings	
Investment grade securities	0 – 100%
Sub investment grade and unrated securities	0 – 25%
Sectors	
Australian trading bank	0 – 50%
Non-Australian trading bank	0 – 15%
Sectors other than banks	No More than 30% per sector
Other limits	
Floating rate securities	50 – 100%

## Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

## Labour, environmental, social and ethical considerations

Equity Trustees and the Investment Manager do not generally take into account labour standards or environmental, social or ethical considerations for the purpose of selecting, retaining or realising investments.

## Fund performance

Up to date information on the performance of the Fund can be obtained from [www.spectruminvest.com.au](http://www.spectruminvest.com.au). A free of charge paper copy of the information will also be available on request.

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following table can be used to compare costs between this and other simple managed investment schemes. Fees and costs are deducted from the assets of the Fund and reduce the investment return to investors. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
<b>Fees when your money moves in or out of the Fund</b>	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
<b>Management costs</b>	
The fees and costs for managing your investment <sup>1</sup>	Management fees: 0.75% p.a. of the NAV of the Fund <sup>2</sup>

<sup>1</sup> All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

<sup>2</sup> Management fees can be negotiated. See "Differential fees" below.

## Additional Explanation of fees and costs

### What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the assets.

The management fees of 0.75% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management costs shown above do not include extraordinary expenses (if they are incurred in future), including litigation costs and the costs of convening unitholder meetings.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through Buy/Sell Spreads).

### Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy/Sell Spread is paid into the Fund and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.15% upon entry and 0.15% upon exit. The dollar value of these costs based on an application or a withdrawal of \$50,000 is \$75 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread.

During the financial year ended 30 June 2017, the total transaction costs for the Fund were estimated to be 0.06% of the NAV of the Fund, of which 100% of these transaction costs were recouped via the Buy/Sell Spread. However, such costs for future years may differ.

### Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum fees that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

### Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients.

## Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

### mFund

Warning: if you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

## Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Spectrum Strategic Income Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every \$5,000 you put in, you will be charged \$0
Plus Management costs	0.75% p.a.	And, for every \$50,000 you have in the Fund you will be charged \$375 each year
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, then you would be charged fees of: \$375 * <b>What it costs you will depend on the fees you negotiate.</b>

\*This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only.

Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

**Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.**

ASIC provides a fee calculator on [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you may use to calculate the effects of fees and costs on your investment in the Fund.

## 7. How managed investment schemes are taxed

**Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.**

The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT"), are attributed to them.

## 8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and send your completed Application Form to:

Mainstream Fund Services Pty Ltd  
Client Services Registry Team  
GPO Box 4968  
Sydney, NSW, 2001

or emailing [registry@mainstreamgroup.com](mailto:registry@mainstreamgroup.com)

If applying via mFund you will need to provide the application money directly to your licensed broker.

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

### Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

### Cooling-off period

If you are a Retail Client (as defined in the Corporation Act) who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment. The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period, this could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unitholder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

## Enquiries and complaints

If you have any questions regarding the management of the Fund, you can contact Investment Manager on +61 2 9299 2288. If you are not completely satisfied with any aspect of our services regarding the management of the Fund, please contact Equity Trustees. Equity Trustees seeks to resolve potential and actual complaints over the management of the Fund to the satisfaction of investors. If you wish to lodge a formal complaint please write to:

Compliance Team  
Equity Trustees Limited  
GPO Box 2307  
Melbourne VIC 3001  
Email: [complianceteam@eqt.com.au](mailto:complianceteam@eqt.com.au)

Equity Trustees will respond within 14 days of receiving the complaint and will seek to resolve your complaint as soon as practicable but not longer than 45 days after receiving the complaint. If we are unable to resolve your complaint, you may be able to seek assistance from the Financial Ombudsman Service ("FOS"). To find out whether you are eligible (and if so, to make a complaint) contact FOS on 1800 367 287 (Australia) or +61 3 9613 7366, [info@fos.org.au](mailto:info@fos.org.au) or GPO Box 3, Melbourne VIC 3001.

Please include the Equity Trustees FOS membership number with your enquiry. It is 10395.

FOS can assist you if Equity Trustees cannot. FOS may not consider a dispute where the value of a person's claim exceeds \$500,000. FOS is only able to make a determination of up to \$309,000 per managed investment claim (excluding compensation for costs and interest payments). These monetary limits and the FOS terms of reference do change from time to time. Current details can be obtained from the FOS website ([www.fos.org.au](http://www.fos.org.au)).

## 9. Other information

### Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the Investment Manager of the Fund; and
- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager and the Custodian have not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. Neither the Investment Manager, the Custodian nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which it has provided its written consent to Equity Trustees for inclusion in this PDS.

## mFund Settlement Service

You must use a mFund accredited and licensed broker to facilitate your transactions on mFund. Your chosen broker may charge you additional fees which are not outlined in the Fees and Costs section of this PDS.

### Further reading

You should read the important information in the Reference Guide "Other important information" section about:

- your privacy;
- the Constitution for the Fund;
- the Anti-Money Laundering and Counter-Terrorism Financing laws ("AML/CTF laws");
- Indirect Investors;
- Information on underlying investments;
- Foreign Account Tax Compliance Act ("FATCA"); and
- Common Reporting Standards ("CRS"),

before making a decision to invest. Go to the Reference Guide which is available at [www.eqt.com.au/insto](http://www.eqt.com.au/insto). The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.
